

Follow-up on HSI Impact Presentation 10/11/07

Right now, there are some (relatively outdated) HSI Impacts on our Web site at:

http://www.csrees.usda.gov/nea/education/in_focus/multicultural_if_hispanic_impact.html

Feel free to update them as Impact writing “practice!”

The Impact database, which we stopped populating in 2005, is online at:

<http://www.csrees.usda.gov/newsroom/impacts/impacts.html>

This database will eventually be phased off the Web site. In the future, we will be collecting Impacts/Outcomes through the new reporting tool.

We love to highlight our partner institutions’ news stories at:

<http://www.csrees.usda.gov/newsroom/lgunews/lgunews.html>

If you’ve got a great press release we might be interested in, please send it to our newsroom coordinator selliott@csrees.usda.gov.

Also, for those looking to download the PDFs of the CSREES Living Science Series, you can do so at: <http://www.agriculture.purdue.edu/USDA/careers/index.html>

Again, please feel free to contact Anne Henderson with any questions about Impacts or anything else about the CSREES Web site.
